Mayotex

Mayotex produces a comprehensive range of combat proven add-on armor kits, providing a fully customizable range of civilian vehicle protection solutions, transforming your vehicle into your personal highly protected safety zone.

VIP Solution

Mayotex is the perfect VIP solution. Outfitting any large car or SUV with a Mayotex add-on armor solution guarantees optimum ballistic protection while ensuring the vehicle remains inconspicuously discreet so as not to warrant any unwanted attention.

Add-On Armor Solutions

Mayotex add-on armor solutions are equally effective for protecting larger vehicles such as pickups, trucks and buses. Mayotex fabricates the Aramid and Polyethylene panels utilized in its add-on armor solutions, guaranteeing optimum quality control and integrity. All Mayotex solutions exceed the most demanding US security ratings.

Main Features and benefits:

- Superior ballistic protection ensuring safety of driver and passengers.
- Customized modular system, enabling quick and easy transfer of armored elements from one vehicle to another.
- Combat proven ballistic capabilities.
- Totally unobtrusive, blends into surroundings.
- Efficient and cost effective.
