The Baran Group is a global provider of engineering, technology and construction solutions, being the largest engineering company in Israel. Baran Group executes projects from conception to completion, including all E.P.C.M. (Engineering, Procurement, Construction, Management) services all the way to Design Built and Turnkey projects. The Group is able to handle complex and challenging projects, to offer creative and unconventional solutions, and to customize projects according to clients' specific needs.

With over 30 years of experience, the Baran Group has executed thousands of projects for a diverse

group of clients. Today, the Group works closely with leading Israeli and international companies. Most of the Group's employees are engineers and practical engineers specializing in a wide range and multidisciplinary fields. With over 1800 employees worldwide and an annual revenue of over \$300 million, the Group has offices in Israel, Western & Eastern Europe, North, Central & South America, South & Central Africa and South East Asia.

Highest & Strictest Standards

Baran Group has a strong corporate social responsibility and is fully committed to environmental, health and safety issues. All activities are ISO 9001, ISO 14001, and IS 18001 certified.

Baran as a Green Group

During the last decade Baran has been actively involved in projects related to both conventional and alternative energy systems, especially solar systems. Baran is also pioneering the "Green Building" projects in Israel by design, management and construction – the first that has been credited by LEED® standards. As part of our goal to promote the subject Baran has joined as a founding member the Israeli Green Building Council.

CSR - Corporate Social Responsibility

Baran Group is committed to a full range of Corporate social Responsibilities. In 2008 Baran has issued its first CSR report written in the spirit of the GRI. The group CSR is focusing on Community Economic Development, Sustainability & Business Ethics. As of 2005, and each year since, Baran Group has been granted the highest classification of the TASE MAALA Index.
