Ceragon Networks Ltd. is a leading provider of high-capacity LTE/4G-ready wireless backhaul solutions.

We provide a broad portfolio of innovative, field-proven, high capacity wireless backhaul solutions for wireless service providers as well as private businesses. These solutions are designed to deliver voice and premium data services, eliminate the backhaul capacity bottleneck, significantly reduce backhaul costs and transition to next generation IP-based networks.

Ceragon's focus on backhaul is a significant advantage as it serves all types of access technologies, and any type of network. The main driver of Ceragon's business is its modular FibeAir® product family, a cutting-edge, high-capacity solution for wireless backhaul transport of broadband services over IP and SONET/SDH networks.

Ceragon is active in private network deployments in a variety of verticals that rely on microwave backhaul. Private network deployment verticals include utilities and smart grid initiatives, public safety, educational institutions, healthcare, oil and gas, and transportation.

Ownership

Ceragon is a public company traded on NASDAQ: CRNT and TASE. Ceragon holds a financially solid position with 2009 revenues reaching \$184.2m, zero debt, and 27% CAGR between 2003-2009.

Flexible and Scalable Product line

Based on innovative technology and designed with network evolution in mind, the FibeAir solutions offer modular designs and a rich set of features. Whether serving GSM, CDMA, HSPA, WiMAX or private networks, Ceragon's FibeAir solutions provide highly flexible and scalable answers for cost effective, future-proof high-capacity backhaul connectivity.

Ongoing Leadership

As a long-time leader, Ceragon has achieved numerous industry "firsts", including the first solution for wireless transmission of 155 Mbps at 38 GHz, the first native IP wireless transmission offering, the first to achieve Metro Ethernet Forum (MEF) certification for microwave Ethernet and other breakthroughs. The Ceragon's innovative approach has been proven to provide a rapid, cost effective and scalable wireless answer for all types of access networks, a true competitive advantage that provides a sturdy foundation for the Ceragon's current success and ongoing growth prospects.

Worldwide Sales

With a customer base of over 150 service providers and hundreds of private networks Ceragon's solutions are deployed in nearly 100 countries across the globe. Operating an extensive sales network, Ceragon has numerous sales offices located throughout North and South America, EMEA and Asia, handling direct sales. Partnerships with leading distributors, VARs and system integrators around the world provide an active indirect channel.

Certification

Ceragon holds certificates for ISO 9001:2000 and ISO 14001 :2004.
