

Cimatron Ltd.

Line of Business

Software
Software-Vertical Industry
Applications (CAD/CAM for
tooling and Manufacturing)

Established

1982

Leading Executive

Mr. Danny Haran
CEO

Cimatron develops and distributes CAD/CAM software for the manufacturing industry. With two major product lines, GibbsCAM and CimatronE, Cimatron caters to all manufacturing sectors, offering specialized solutions for mold and die makers, as well as solutions for 2.5-5 Axis production milling and turning.

Ranked among the top six CAD/CAM suppliers in every global region, Cimatron has subsidiaries in Asia, North America and Europe, and works with certified independent service providers in over 40 countries worldwide.

Ownership

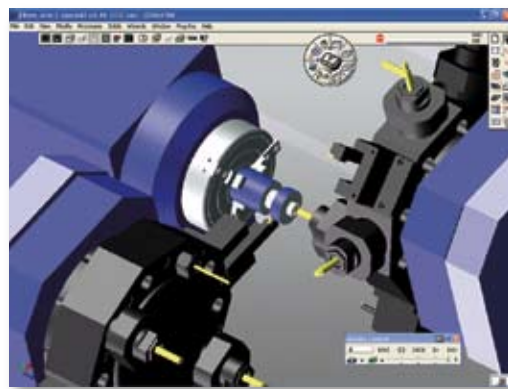

Traded on the NASDAQ (CMT)
Major shareholder: D.B.S.I Investment Group
