Specializing in engineering high quality plastic raw materials and manufacturing plastic parts and products, DANIA exports its goods across the globe. With a staff of over 25 employees that includes a highly skilled management

The Dania Difference:

Catered Customer Service

Abiding by a philosophy of catered customer service, DANIA provides each client with the support it needs. From the initial idea that is translated into a part and mold design provided by the company's Development Department to actual delivery date, DANIA is by its client's side, carefully listening and assisting in order to fulfil expectations.

State-of-the-Art Injection Molding

DANIA's state-of-the-art production facilities include 14 advanced injection molding machines capable of handling 75-280 tons, as well as sophisticated ultrasonic welding and hot stamping equipment. Meeting the ISO 9001 standard, DANIA abides by strict Quality Assurance procedures during every step of its production process. Outfitted with an in-house mold and equipment maintenance department, DANIA ensures that its molds and machinery always operate at peak performance. All molds are being produced at Dania's facility in Dungan China. After the molds are being approved, the molds get delivered to Israel for the plastic injection work.

Premium Quality Products at Competitive Prices

A high performance company, DANIA applies its innovative engineering skills and extensive experience in injection molding to a wide variety of industries. Today, DANIA is providing premium quality plastic parts and products at competitive prices to companies dealing in medical equipment, toys and games, auto spare parts, house wares, musical instruments, food, confectionary and electronic housing.
