

# Dorot Control Valves Ltd.

## Line of Business

Hydraulic Control Valves

## Established

1946

## Leading Executives

Mr. Avi Harpaz  
General Manager

Mr. Gideon John Kedar  
V.P. Sales and marketing

**F**ounded in 1946, Dorot is a leading developer, manufacturer and marketer of a wide range of superior quality automatic control valves, air valves and mechanical valves. Dorot was a pioneer in developing hydraulic control valves, and its series 300 valves became a leading product in waterworks control systems worldwide.

## Experienced R&D

Dorot's experienced Research & Development department has a long tradition of generating innovative solutions for the application of water control systems, including waterworks distribution networks, sewage and effluent disposal, fire protection, mining, water meters, air valves and irrigation systems.

is its outstanding customer service. This includes field assistance, technical advice, training programs and follow-up consultations.

## Waterworks

Dorot's valves are specially designed to comply with all the demands of Waterworks systems such as: Pressure Management, Low Flow Regulation, Leakage Prevention, Pump Control, Level Control, Surge Prevention, Sewage and Water Treatment.

## Irrigation

Dorot is a leader in Automatic Control Valves for the Irrigation Market including: Drip Irrigation, Greenhouses, Turf and Landscape.

Our innovative state of the art products are made of a variety of materials such as: Cast Iron, Ductile Iron, Steel, Stainless Steel, Bronze, Polyamide and uPVC. Dorot's "GAL" valves became an industry standard.

## Fire Protection

Dorot offers a variety of valves for fire protection applications with UL Approvals.

## Air Release Valves

Non-Metal Air Release Valves and Ductile Iron Air Release Valves for waterworks and irrigation.

## Construction and Industry

Dorot offers control applications for high rise buildings such as: Flow and Pressure regulation, Water hammer prevention and Reservoir level control.

## Filtration and Water Treatment

Dorot offers a variety of Back Flushing valves for filtration systems. These valves are made of high durability materials for water treatment of aggressive waters.

## Other Applications

Dorot offers a variety of valves for such applications as Mining, Power Generation Stations, etc.

## Broad Range of Valves

Using our broad range of valve patterns and sizes, Dorot's team of experts custom-designs each valve application according to specific control requirements, using the highest quality materials.

## Advanced Testing

Before leaving the factory, all valves go through an advanced testing laboratory simulating field conditions. These factors and more are what make Dorot a leader in fluid control technology.

## Global Distribution

With distribution in more than 70 countries worldwide, a key component of the DOROT difference
