Feldman Vehicle Conversions Ltd. is an Israeli company specialized in manufacturing and installing of complete interior arrangements for minibuses.

The company was established in the early 70's as an upholstery workshop for bus seats. Over the years, the company started producing seats for commercial vehicles and installing them in a wide range of small, medium, and large cars, offering conversions for a wide range of commercial vehicles and becoming a leading brand nationwide. A new manufacturing plant was recently opened in Ashdod (next to the harbor).

- Mobile working units.
- Prisoner transportation.
- Mobile post office vehicles.
- Mobile Labs.
- Mobile police stations.

Feldman products are recognized in the Israeli market for their high quality. The company's customers include leading vehicle importers, transportation companies, main taxi stations, and government bodies, such as Israel Police, Israeli Prison Service, Israeli Post Service, Vehicle Administration, and the IDF.

Feldman products are controlled by:

1. Israel Ministry of Transportation and Road Safety, the Standardization Department.
2. Israel Metal Institute – the Technion, Israel Institute of Technology, Haifa.
3. The Technion Research and Development Institute - the Quality and Reliability Assurance department providing ISO 9000 certification.

Feldman Vehicle Conversions ensures quality and customer satisfaction.

The company operates various departments, including research & development department, assembling & Quality assurance department, painting, upholstery, welding and carpentry workshop, in the plant at Ashdod, to meet the high quality demands of customers.

Feldman is the leading vehicle conversions in the Israeli market. Feldman is constantly seeking to expand its range of in-vehicle applications. The company is well-known for its quality products in the Israeli market and they have much demand.
