

# Galtronics Corporation Ltd.

## Line Of Business

Antenna Systems:  
Design & Manufacture  
In-Home Energy  
Management Systems

## Established

Tiberias, Israel – 1978

## Leading Executive

Brian Cape  
CEO

**G**altronics is a global company providing affordable antenna system solutions of the highest quality design. Galtronics are experts in the field with an excellent reputation for quality, integrity and reliability.

Galtronics strives to meet your needs by partnering with you every step of the way, from the initial design concept to production and delivery of your antenna solution. Galtronics assures on-time delivery of all its tailored solutions, guaranteeing manufacturing scalability whenever needed.

Galtronics has a vision that is unwavering – “Customers for Life”. To earn the trust and loyalty of our customers we listen carefully to their needs,

## Ownership

Private Company

## Brief History

Galtronics was founded in 1978 in Tiberias, Israel by Ken Crowell. The company started making antennas for Motorola two way radios, rapidly improving manufacturing technologies.

Later, in collaboration with early industry leaders, Galtronics invented the first cellular antennas for mass production. Today Galtronics has expanded again and developed a new line of high performance base station antennas and has been pioneering new technology for energy management with its Energy Solutions Division.

## Customer Focused Products & Services

Galtronics is always looking for new and innovative ways to provide added value for its customers. Galtronics has consistently provided the ingenuity, flexibility, and responsiveness to deliver tailored products and services to clients including:

- Antenna Design & Manufacture
- Plastics & Mold Making
- Product Assembly
- Metal Stamping
- SMT – Surface Mount Technology
- Plating
- Clean Room Manufacturing
- Electronic Medical Devices
- Research & Development

## In-Home Energy Management

Galtronics has a number of exciting projects in store for 2010 and beyond, including the launch of our proprietary designed and developed in-home energy management system – Galtronics SymSystems ([www.symsystems.com](http://www.symsystems.com)).

## Certification

Galtronics has developed a well-established Quality Management System (QMS) that operates according to the international ISO-9001:2008 standard requirements. Galtronics is committed to maintaining a high standard of corporate responsibility as part of our business philosophy.

## Overseas Offices

Galtronics has offices in Israel, China, Korea, Taiwan, Malaysia, Europe, and the USA.

anticipating future requirements and providing added value to help them obtain that all-important competitive edge.

## Products & Services

Galtronics are global experts in antenna technology. With a notable 33 year heritage we provide tailored antenna and communication solutions to a wide range of market segments including mobile phone, notebook, mobile data device, home & enterprise networking, 2-Way radio, telemetry, telematics, infrastructure, medical and diversified products markets.

## Customer Loyalty

With an exceptionally loyal OEM customer base - including Cisco, Motorola, and Samsung - Galtronics are trusted partners to their customers and ensure reliability, scalability and quality from design through production to delivery - all under one roof.
