Spacenet Inc.

Gilat Satellite Networks Ltd. (NASDAQ: GILT. TASE) is a leading provider of satellite communications and networking products and services. Gilat's broadband solutions deliver efficient, reliable and affordable data, Internet, voice and video. For 23 years, Gilat has been at the forefront of Very Small Aperture Terminal (VSAT) technology and services and continues to be an innovator and developer of new satellite technologies. The Company's solutions serve the communications needs of carriers, enterprises, governments, service providers and consumers around the globe. The Company also provides value to its customers through comprehensive end-to-end solutions, turn-key projects, managed network services and network outsourcing. Gilat has shipped over 750,000 VSATs to more than 85 countries across six continents.

tion needs as well as the flexibility to evolve their networks. The newest addition to Gilat's SkyEdge II portfolio is NetEdge™, a dedicated solution for multi-star networks, specifically designed to meet the needs of corporate networks and cellular-backhaul applications.

Solutions

Gilat's VSAT-based networks serve as a platform for the delivery of custom tailored solutions for identified markets. Gilat pre-packages, commercializes and sells these end-to-end solutions, which offer higher value to its customers. For example, Gilat's SkyAbis cellular backhaul solution enables operators to deploy hybrid networks that extend the reach of their terrestrial and cellular infrastructure to remote communities. Gilat's end-to-end solutions include government communication

infrastructure solutions for post offices, elections, military and security and rapid VSAT deployment. Gilat also provides turnkey solutions that include installation, operation and third-party peripheral equipment.

In addition, Gilat delivers complete and comprehensive solutions to meet the needs of its customers even where VSAT is not the main part of that solution.

Financial Data

Total Sales in 2009: \$228 million

Employees: As of December 31, 2009, Gilat had 922 full-time employees,

including 159 employees engaged in engineering, research and development.
