

Meprolight (1990) Ltd.

Line of Business

Optical and Electro-Optical Sights, Night Vision Devices, Thermal Sights and Devices, LED Marking Devices

Established

1990

Leading Executives

Mrs. Orly Kasav-Peleg
Chairwoman of the Board

Mr. Eli Gold
CEO

Mr. Golan Kalimi
VP Marketing

Founded in 1990 and headquartered in Israel, Meprolight addresses the needs of the military, law enforcement and civilian communities for innovative and reliable day and night sights and devices, as well as illuminated products for safety and security.

The company designs and manufactures a wide array of combat-proven electro-optical and optical sights and devices, night vision devices, thermal sights and a variety of night sights and other tritium- and LED-illuminated products and accessories for safety and security applications. Meprolight is regarded as one of very few manufacturers in the world that can provide comprehensive solutions in this sphere.

Meprolight maintains contacts with many de-

Mepro Mor - Multi Purpose Reflex Sight with Laser Designators

fense establishments, meeting the special needs of armed forces in different battle scenarios. The company collaborates with many of the world's leading weapon manufacturers, and is regarded as the largest OEM sights manufacturer.

In Israel, Meprolight works closely with Israel Defense Forces (IDF), government security agencies, the military industries and Israel Police. In fact, Meprolight is considered their development workshop for a wide variety of products and applications, and provides various services such as refurbishment and maintenance.

Superior production methods and rigid quality control have made Meprolight the first choice among law enforcement agencies, defense decision makers and major weapon manufacturers. A fully quality program, certified to ISO-9001:2000 and employing NATO and US military specifications, is in place. All products and processes at Meprolight are performed, controlled and monitored to these demanding quality levels.

Meprolight offers the following sights and devices:

Thermal

NOA – Advanced Uncooled thermal weapon sight (7X or 4X magnification).

Optics

Mepro 21 – Maintenance-free, dual illuminated “red dot” reflex sights.

Mepro MOR – Multi-purpose, “red dot” reflex sight with two laser pointers.

Mepro MX3 – 3X magnifying scope.

Mepro GLS – Self-illuminated optical sight for 40 mm grenade launcher.

Minimon-I – Multi-functional, high performance, night vision mini-monocular.

MNV 4X/6X – Night vision weapon sight.

Mepro Noa - Un-cooled Thermal Weapon Sight

Tritium

Illuminated night sights for pistols, revolvers, rifles and shotguns.

Illuminated map reader - enables reading any map in low light and severe weather conditions.

Self-illuminated prismatic magnetic compass – maintenance-free, no batteries and no switches.

Personal marker for nighttime identification – eliminating “friendly fire” accidents.

Self-illuminated aircraft markings – permanent or improvised illumination of almost any desired point.

Illuminated aiming post light – identification or marking under low-light conditions.

LED

Electro-Flare – heavy duty LED flashing device for temporary marking applications.

Mepro LIR – LED personal marker – Infrared (IR) beacon designed specifically as an individual combat identification device (CID) for fratricide prevention.
