

MYKO Engineering Ltd.

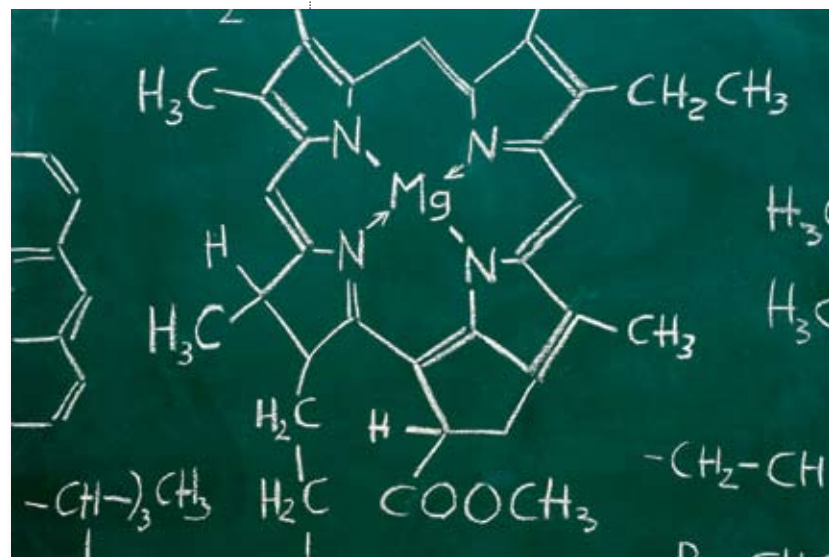

Leading Executive

Mr. Zeev Lavie
CEO

MYKO Engineering Ltd. is an engineering company with rich technical and commercial experience.

Comprehensive Services

The company deals with importing, marketing, distributing, technical consultancy and sales of raw materials to the following industries: composite materials, paint, plastics, cosmetics and pharmaceuticals. The company has more than 20 years experience in distributing raw materials, and providing service and consultancy through its accomplished engineers.

Two Warehouses

The materials that are imported are distributed from MYKO's stock in its two warehouses in Kfar-Saba, near Tel Aviv.

New Applications

MYKO Engineering has the ability, experience and knowledge to provide service and consultancy regarding R&D or new projects, and for developing new applications.

Stringent Specifications

MYKO's main principal is that the materials delivered from its stock are of top quality and are delivered with all the required statements of conformity, lab test results and others, as proof of its stringent specifications.

Quality, Service, Reliability,

MYKO Engineering's work methods always strictly maintain the three fundamental principals of QUALITY, SERVICE and RELIABILITY.
