

NCA - Turnkey Solutions

Line of Business

Turnkey Solutions for the Automotive Industry

Established

1981

Leading Executive

Mr. Nir Geller
CEO

Our Core Specialty

NCA specializes in supplying technological solutions to the leading automotive manufactures in the world and also manufactures automotive parts at its own factories in Israel & Turkey.

The NCA engineering department offers customers complete design and system development services, using advanced engineering tools, the best human resources and many years of practical experience.

Our engineering team is located in both Istanbul and Tel Aviv technical centers providing our customers with creative technological solutions.

We support customer's manufacturing process from the quotation stage until the routine production process commences.

Technical Center Istanbul

Benefit from synergy of technological innovations and manufacturing experience!

- Quality is assured from the first day of production
- High productivity is achieved at minimum cost.
- NCA delivers the latest in machining technology.
- A single source you can trust for all your machining needs.

Our Customers

FIAT, FORD, TADIR-GAN, TOFAS, EGEFREN, SUPERPAR, CAVER DOCUM

Before Receiving Your Order

We examine your drawings and specifications in order to provide

- Quotation
- Process overview
- Time Study
- Capacity analysis
- Tooling concept, including a tool list
- Fixture concept
- Automation/Semi automation concept

After Receiving Your Order

- Engineering
- Design & Manufacture of fixtures
- Design & Procurement of Cutting Tools
- Design & Procurement of Automation/Semi Automation
- Programming
- Prove out
- Run-off
- Standard documentation
- Training

We provide

- Know-how and many years of experience in machining
- Design and manufacturing of hydraulic fixtures in-house.
- Design and procurement of cutting tools. "Smart tooling" approach (in cooperation with world leading tool suppliers).
- Fastest cutting conditions.
- Application and Integration of different automation/semi automation levels.

Sharekey

We offer our customers to maximize their own engineering resources by using our Sharekey flexibility and decide how much of NCA's application engineering they wish to utilize.

You select how much of the full Turnkey solution you need!
