

# NILIT® Ltd.

## Line of Business

Manufacturer of Nylon 6.6  
Polyamide  
Fibers and Polymers

## Established

1969

## Started Production

1974

**N**ILIT is committed to creating innovative, customized nylon (polyamide) 6.6 solutions.

## Committed to Quality and Innovation

NILIT has expertise in polymerization and compounding, as well as spinning and texturing. NILIT offers a comprehensive range of quality products and services for apparel and engineering thermoplastics applications. Founded in 1969 by Ennio Levi, NILIT is a privately owned company with headquarters in Israel.

## International Customer Base

The company works closely with its international customer base from offices in Italy, US, Germany, France, Latin America, Asia Pacific, and in Suzhou, China. NILIT products are sold in more than 70 countries around the world. The company's motto is "no customer is too small, too big or too far away."

## Customized Solutions

NILIT's key competitive advantage is its people. The company works closely with customers to provide the right solutions and bring real value. Fully integrated, NILIT has the technology and development capabilities to customize solutions and introduce original products. The company's products and solutions help our customers meet the demands of their increasingly competitive markets.

## NILIT Fibers

NILIT's state-of-the-art spinning mills, produce a broad spectrum of continuous filament: nylon 6.6 yarns for textile applications. At the company's manufacturing facilities in Israel and Europe, nylon is processed from polymerization to extrusion, to spinning and packaging. NILIT's in-house R&D center develops advanced, customized yarns and fabric concepts for customers worldwide.

## Joint Ventures

NILIT's commitment to the textile industry is evident in its investment strategy and desire to provide value for customers worldwide. Joint ventures with HanesBrands (HNF), global manufacturer of women's hosiery and intimate apparel; Unifi (UNF), global yarn processor; and Pompea S.p.A (PNF), Italian hosiery, lingerie and activewear manufacturer for a state-of-the-art POY production line, and the Invista fibers production facility in Germany in 2006, the opening of NILIT's texturing plant in China and the recent acquisition of Nylstar's US operations, all prove NILIT's dedication to the Market.

## NILIT Plastics

Spanning industries from automotive, to electrical components, medicine and consumer products, NILIT Plastics produces a wide variety of nylon 6.6, nylon 6, and PBT compounds. The company produces products for injection molding as well as extrusions, films, monofilament spinning. NILIT's PA6.6 fully integrated plastics operation encompasses monomer production, polymerization, post-polymerization processing and compounding.

Through its polymerization plant in Israel, compounding operations in Europe and China - NILIT Euronil in Italy, NILIT Frisetta in Germany and NILIT Plastics China - the company markets products under the trade names: Polynil® Nilamid® Frianyl® Nilitop® Nilamon® Artex®.
