

# Palziv

**Line of Business**  
Plastic & Rubber

**Established**  
1973

**Leading Executives**

Mr. Meir Langer  
General Manager

Ms. Adi Ben Or  
Site Manager

Mr. Doron Yotzer  
VP Marketing

**P**alziv is a leading manufacturer and fabricator of cross-linked poly-olefin foams. The company specializes in chemically cross-linked, closed-cell polyethylene foam. Palziv has a materials division and fabrication division as well as an engineering and R&D team.

**Products**

Palziv offers Foamed PE as raw material in two basic forms.

**GalFoam™** - material in rolls, manufactured in a continuous, extrusion process.

**PalFoam™** - material in blocks, manufactured in molding process.

**Packaging Solutions**

Cartons, wrap-around, cases and more.

Conductive, Anti-Static, FR (fire retardance), EVA (for softness) and metalocene (for elasticity), upon customer request.

**Products Division**

Palziv has strong fabrication (transformation) capability.

The materials may be:

- Split and cut to necessary dimensions.
- Laminated.
- Applied with adhesives.
- Thermo-formed.
- Embossed.
- Tooled by CNC.
- Assembled, etc.

As required to meet needs for semi-finished or finished products, according to particular customer requirements.

**R&D and Engineering**

Palziv employs a multi-disciplinary engineering R&D team that is available to answer inquiries for new materials and integrated solutions.

Advanced customized solutions are offered for applications such as:

- Automotive (e.g. door panels, sun visors, joints).
- Packaging (e.g. carrying and display cases).
- Insulation and sealing (e.g. under flooring sheet, adhesive strips).
- Recreational products (e.g. camping mats, buoyancy parts).
- Orthopedics.
- Other diverse applications (e.g. consumer and DIY items).

**Exports**

Palziv is ISO 9001:2000 approved, employs some 200 personnel. Approximately 50% of its sales are from export to all the countries of the European Union, as well as Turkey, Cyprus, Greece and the Middle East.

**Production Sites**

Romania - Tropol  
Canada - PXL  
United States - North Carolina

**Micro Distribution**

UK - Palziv UK  
USA - Palziv North America

**Ownership**

Palziv is a privately owned company located on Kibbutz Ein Hanatziv in the Jordan Valley.

**Brief History**

Established in 1973 the company has been developing and manufacturing the best quality materials using the latest technologies for more than a quarter of a century.

**Other Important Information**

**Materials Division**

The materials used in Palziv's products are:

- Provided in a very wide range of colors and densities.
- Easy to fabricate.
- Can be supplied with added features such as
