

## Plazit 2001

**Line of Business**  
Plastic Products

**Established**  
1973

**Leading Executives**  
Mr. Tito Asher  
Managing Director

Mr. David Pampanel  
Marketing Manager

**P**lazit 2001 was founded in 1973, as a plastics packaging factory. In 1980 the factory, located at Kibbutz Gazit in the Lower Galilee in Israel, began manufacturing extruded plastic sheets. The factory has since increased in size and capacity and has become one of the leaders in Israel's thriving plastics industry.

### Subsidiaries

In 2000, Plazit became owners of Panchim Bulgaria where both PMMA sheets and granules are produced. Kibbutz Gazit also owns 50% of Madaf-Plazit Packaging. In addition Kibbutz Gazit owns a controlling interest in two other companies, Mapal Plastics and Polygal Plastics Industries Ltd.

In 2010, Plazit became owners of a cast PMMA sheet factory in Girona, Spain, PLAZIT IBERICA PLASTIC SOLUTIONS S.A, which has a production capacity of 3000 tons.

### Production

Plazit 2001 operates five state of the art extruder lines in Israel and another three similar lines in its plant in Bulgaria.

The company has installed a clean-room for two of its most sophisticated lines in Israel and one in Bulgaria enabling the company to produce the highest quality optical sheets.

The total annual production capacity in Israel is 17-19,000 tons and in Bulgaria 10-11,000 tons a year.

The Bulgarian plant's total production capacity of PMMA granules is 6-7,000 tons annually.

### Products

The company's product range comprises extruded plastic sheets from a wide range of materials, including PMMA, GPPS, Polycarbonate, SAN and HIPS, suitable for an immense range of applications.

### Team

Plazit 2001 Israel has a team of 110 staff and management. The company has 95 employees in Bulgaria and a workforce of 45 at Plazit Iberica.

### International Marketing

The company exports mainly to Western Europe (EU) and to Eastern Europe, Australia and New Zealand, USA, Asia, and South and Central America.

### Polygal Plastics Industries Ltd.

Polygal Plastics Industries Ltd. is pioneer in the design, manufacture and marketing of polycarbonate & polypropylene structured multi-wall sheets and advanced glazing systems.

In many places, the name "POLYGAL" has become a synonym for multi-wall plastic sheets made of polycarbonate or polypropylene.

Polygal products are designed for a large range of applications including agriculture, private and public architecture, signs and consumer products. Valued for their outstanding light transmission, strength, durability, energy-savings, insulation, ease of installation and overall high quality, Polygal's products provide optimal, cost-effective solutions for skylights, solarium structures, greenhouses, illuminated signs, industrial packaging as well as many other applications.

The Polygal business approach is based on Innovation, Quality & Service and has earned an industry-wide reputation for uncompromising quality and technological innovation. The factory is certified for the quality standard ISO 9001:2000 and the environmental standard ISO 14001

Polygal operates four manufacturing facilities: three for Polycarbonate in Israel, Russia & Chile and one for Polypropylene - adjacent to its headquarters in Ramat Hashofet. In addition, Polygal has a marketing & distribution subsidiary in Charlotte, NC, U.S.A, with a warehouses on premises in Canada.
