

Rabintex Industries Ltd.

Line of Business

Personal Protection
Vehicle Mobility and
Modification
Dry Storage

Established

1950

Leading Executive

Dr. Ehud Ganani
President & CEO

Rabintex Industries Ltd. is one of Israel's largest and foremost defense manufacturers. Internationally recognized Rabintex designs, manufactures and distributes innovative ballistic and blast protection equipment, as well as comprehensive engineering solutions for mobility and modifications of tactical combat vehicles. Rabintex is a major supplier for military, homeland security and law enforcement forces across the globe.

History

The company was founded in 1950 by Hanan Rabinowitz and initially produced tents and accessories, becoming a public company in 1991 with its shares traded on the Tel Aviv Stock Exchange. In January 2007, Inspire Investments Ltd. acquired 58% and assumed control over Rabintex.

Reputation and Know-How

Rabintex and its subsidiaries have earned worldwide professional recognition. They are known for their technological capabilities that enable the development and manufacture of cutting edge products while facing technological and engineering challenges, to meet the highest levels of production quality and customer requirements. Rabintex possesses advanced manufacture and R&D facilities, and employs top-line professionals worldwide.

Areas of Activity

Personal Protection

Rabintex develops, manufactures, and markets personal protection equipment for the use of military, law enforcement forces and civil organizations worldwide. Rabintex's core product lines in this area encompass a variety of combat proven solutions, applying cutting-edge technologies: ballistic helmets, bullet-proof vests, advanced armored plates, ballistic shields and visors. Prior to delivery, products undergo the most stringent testing process including ballistic tests in the company's ballistic laboratory. Production activities are carried out by the company's factory in Beit Shean in northern Israel.

Vehicle Mobility and Modification

Rabintex's subsidiary Burttek, located in Detroit, Michigan, provides engineering planning and manufacturing services for ground-based mobile military equipment, mainly for the US Military and its major defense contractors in the international market. The company's mobility and modification solutions are used by its customers in conflict zones, and include the adjustments of vehicles for these regions, installation of platforms for radar systems on vehicles, converting shelters for tactical use and more.

Dry Storage

Rabintex offers dry storage solutions for tanks and armored vehicles, air crafts, light weapons and civil utilities such as generators. The Rabintex solution guarantees dryness and keeping the equipment undamaged. The protection from humidity significantly prolongs the gear's lifespan.
