Mr. Haim Segev
Plant Manager

Mr. Eliezer Zanovich
Chief of Engineering

Ramim Engineering Works Ltd., manufactures a specialized line of transportable prefabricated communications cabins, mobile laboratories, collapsible cabins, refrigerated container trucks. Established in 1971, Ramim is a subsidiary of Koor Metals Ltd., and receives direct technical, financial and logistical support from this organization. The company utilizes U.S. and Israeli know-how to build communication shelters in accordance with American & European military specifications.

Types of Shelters

Ramim has documented work and process instructions for all of the major operations required

to manufacture the S-280C/G, S-250/G, S-250/E, ISO shelters & different type of shelters up to a size of 50' long shelters, including cleaning, conversion coating, bonding, spot welding, fusion welding, metalizing, painting and application of sealing material.

Manufacturing Experience

Since the founding of the company in 1971, Ramim has produced thousands of S-250 and S-280 shelters in various configurations for numerous customers, the vast majority with EMI shielding. Nearly 1000 S-250 and over 1500 S-280 shelters have been manufactured under U.S. Government contract.

Major Customers

Israel Defence Forces, U.S. Army C.E.C.O.M, ATCOM, MICOM, USOCOM, etc. Israel Aircraft Industries Ltd., M.B.T - Elta, Malam, Malat, Tadiran Ltd. (Tadiran Systems), Singapore Army, Portuguese Army, Spanish Army, Swiss Army, Belgium Army, Various South American Armies, Various Electronics Equipment Manufacturers, Israel Military Industries, Various System Houses - US Companies, Elbit Haifa & Rafael Development Authority.

Products

- Shelter Electrical Equipment S-250/G unshielded N.S.N no. 5411-00-99904935 per (MIL-S-55541) ASTM E-1974-06.
- Shelter Electrical Equipment S-250/G shielded N.S.N no. 5411-00-489-6076 per (MIL-S-55541) ASTM E-1974-06.
- Shelter Electronic Equipment S-280C/G N.S.N no. 5411-01-092-0892 per (MIL-S-55286E) ASTM E-1975-06.
- 20' ISO shelter per Mil-M-81957(AS)/MIL-S-29410(B).
- Various housing boxes for mini - RPV/MISSILES etc.
- 40' (L) x 11' (W) x 10' - Control & Maintenance shelter for radar systems.
- Shelter type 1497 & 788 for HMMWV, per Mil-STD-907B (ASTM E-1925-06).
- NATO shelters types NATO 1, NATO III(1), ACE(1) & ACE (III).
- 20' & 40' expandable shelters one side or two sides.

Quality Assurance

The company maintains a quality control system per ISO STD 9001 and the plant is equipped with modern machinery, so that when operating on one shift, it has the capacity to produce 30 shelters per month.

Areas of Activity

Ramim's Shelter construction consists of panels hot bonded sandwich construction of a polyurethane foam core, aluminum skins and framework. Portable environmental electronics shelters produced by Ramim meet US Military standards & NATO standards.
