**R**iT is a leading provider of intelligent solutions for infrastructure management, asset management, environment and security, and network utilization.

**RiT Enterprise Solutions**

RiT Enterprise Solutions address datacenters, communication rooms and workspace environments, ensuring maximum utilization, reliability, decreased downtime, physical security, automated deployment, asset tracking, and troubleshooting. PatchView™ intelligent infrastructure management (IIM) solution, coupled with SMART Cabling Solution™, gives you real-time control of network connectivity, IP and infrastructure assets, facilitates service deployment and improves asset utilization through the interaction of cutting-edge software and hardware products.

Working with RiT, you benefit from working with a single source supplier that stands firmly behind its products. It ensures a smooth, no-surprises project from planning, through on-time delivery, all the way through installation.

**Worldwide Activities**

With international headquarters located in Tel Aviv, Israel, RiT maintains local sales and support presence all over the globe – through representative offices, global and regional OEM as well as channel partners.

**Solid and Growing Company**

A public company, RiT's shares have been traded on the NASDAQ exchange since 1997 under the symbol RITT. RiT enjoys a growing customer

**RiT Carrier Solutions**

RiT Carrier Solutions provide carriers with the full array of network mapping, testing and bandwidth qualification capabilities needed for access network installation and service provisioning. RiT's field-tested solutions are delivering value in thousands of installations for top-tier enterprises and operators throughout the world. RiT's PairMax™ solution suite is a complete solution for mapping the entire last-mile telecommunications infrastructure. Fixed line service providers use PairMax to update and maintain an accurate OSP database; support smooth, error-free migration to NGN services, and streamline the provisioning of triple-play services.

RiT is a trusted source of cutting-edge connectivity and intelligent infrastructure management solutions with state-of-the-art products deployed by thousands of businesses worldwide, including FORTUNE 500 companies and premier telecommunications carriers.

base, fueled by the introduction of new solutions and by marketing and sales activities around the world. Our customers include many of the world's largest telecommunications carriers, government, financial, legal and healthcare institutions, airports, and other enterprises that have installed our solutions in their datacenters, network facilities and employee workspaces.
