

Sasa-Tech

Line of Business

Manufacture of automotive products, industrial products, household and cleaning products

Established

1982

Leading Executives

Mr. Rami Ziv
Managing Director

Mr. Gil Kishenovsky
Export Manager

SASA-TECH, a dynamic and fast-growing company, was established in 1982 in the Upper Galilee region of Israel.

SASA-TECH is an international company, with sales in east and west Europe as well as in the U.S. Besides manufacturing its own products, SASA-TECH specializes in providing products for PRIVATE LABELS.

SASA-TECH's main activities are manufacturing aerosols, liquids and pastes, under the MAXOL-MAX™ premium quality line or under any requested PRIVATE LABEL.

As a leading company in the above-mentioned fields, SASA-TECH manufactures Ad Blue (Diesel Exhaust Fluid) and a variety of automotive products (aerosols, lubricants, car care, tire care, engine care, etc.), industrial products (aerosols, multi-purpose lubricants, silicone spray, electric contact cleaner, etc.), household products (air fresheners, cleaning products, pest control, home care products, etc.), and janitorial products (soap concentrates, etc).

SASA-TECH is committed to providing consistent quality, using the most advanced technologies. SASA-TECH strongly believes that meeting its customer's demands is the key to its success. Therefore, flexibility, innovation and personal service are our guiding principles.
