

Scope Metals Group Ltd.

Leading Executives

Mr. Shmuel Shiloh
Chairman of the Board

Mr. Gil Haver
CEO

Scope Metals Group (Scope) is a premier full service provider of supply chain solutions, supporting the global aircraft, aerospace & defense industries. Scope's operations are tailored to provide "just-in-time/cut-to-size" delivery of quality materials to its customers so as to ensure that they have what they need exactly when needed. Our motto is – anything, anytime. Scope is a "one-stop-shop", holding over 10,000 different aerospace items in stock – from a wide range of metals and alloys. Our expertise is total inventory management – releasing our customers of the need to hold stock and thereby increasing their efficiency. We deliver quality cut-to-size materials directly to the production line (including sub-contractors) in order to maximize customer productivity. We also care to our customers' spe-

cial needs – providing fast solutions for hard to find items and AOG. The 40 dedicated employees in our aerospace division process daily deliveries around the globe. Scope services its aerospace customers from warehouses located strategically in Israel, the US, the Czech Republic, Romania and Poland.

of bars - aluminum, stainless steel, steel; 75 types of pipes & tubes - aluminum, stainless steel, steel; and 50 types of laminated shims. The complexity of the project is magnified by the wide range of materials purchased from many suppliers, the high quality demands necessary for the project, the supply to subcontractors in China, USA ,Italy and Israel, the responsibility for shipment including export packaging, export documents, container loading and the modification of required materials/dimensions during the project.

State-of-the-Art Equipment

Scope's "total customer package " is supported by state-of-the-art automatic and computerized warehouses and processing equipment, including advanced cut-to-length and blanking lines, a slit-

Full Project Support

In addition, we provide our customers with end-to-end project support - booking stock for agreed periods according to forecasts. For example, Scope provides support to a major aerospace contractor on B747 passenger to cargo conversions. The project involves over 1,000 different items: 300 types of plates & sheets - aluminum, stainless steel, steel, titanium, including oversize dimensions; 500 types of aluminum extrusions; 75 types

ting line, fully automatic disc saws, an advanced polishing and coating line, band saws and more. Our main warehouses in Israel cover more than 1,300,000 sqft, including more than 450,000 sqft of covered storage areas.

Unsurpassed Quality

Quality is the core concern of all Scope's operations. Scope is AS 9100 certified. A SAP ERP CRM platform facilitates flexible, coordinated and responsive management which not only meets, but exceeds the expectations of its customers. Scope's aerospace customers are some of the leading manufacturers in Israel and around the globe.
