Supergum is a private company established in Israel in 1956 with over 50 years of experience in designing, manufacturing and marketing rubber and plastic products.

Supergum is Israel's leading rubber and plastic solution provider in the fields of Automotive, NBC protection, Military and Anti-riots products.

The company operates in 4 facilities in Israel- 3 manufacturing plants and 1 managerial (marketing, sales, management and administration) facility in Tel-Aviv.

Supergum currently employs 300 employees with sales for 2008 of over US \$ 50M.

Supergum utilizes all known rubber and plastic technologies exist today and operates high end machinery and tooling.

International customers include top automotive manufactures in North America and Europe and companies in the NBC protection field. In addition Supergum is Israel's leading supplier for the local market in Israel for the above technologies.

Supergum is spread worldwide with sales offices in North America and Europe and operates front logistical facilities in the USA and Germany to support on time delivery demands of its customers.
