Mrs. Galit Bar-Tal
Managing Director

Sycamore Group is the wipes specialist engaged in developing, manufacturing, and marketing of wet wipe products for a variety of applications. Our products are based on innovative chemical formulas and are effective for cleaning such delicacies as computer screens to the tough job of removing dry paint. We pride ourselves on our flexibility and dedication to our customer, which are backed by our strong R&D, QA, and competitiveness to lead us to be the best in the market.

Big Wipes Industrial, selling today all over the world in leading retailers, are offered currently in portable canisters of 250, 100, 80 and 40 and soft packs of 20 and 10 wipes.

For more products and information, please visit our website at: www.sycamorewipes.com.

Our #1 selling product to the industrial and professional markets is our BIG WIPES INDUSTRIAL. These multipurpose wipes are effective in removing and cleaning materials such as adhesives, sealants, silicones, foams, paints, grease, and more. The products contain cosmetic ingredients, do not irritate skin, as proven in dermatological tests, and are pleasantly scented.

The wipes are designed not only for workshop personnel and tradesmen on the move, but also to keep in every garage and toolbox. As part of our responsibility to sustain the environment, we offer you an earth friendly range of products – just as effective as the original BIG WIPES range, yet kinder to the environment.
