1934

Leading Executives
Mr. Meir Yalon
CEO

Mr. Eli Abravanel
V.P. Marketing and
Strategic Development

Established in 1934, Synergy Cables Ltd., is an innovation leader in the power cables industry. Designing, producing and testing the entire range of power, flexible and control cables as well as specializing in the highly complex high and extra high voltage underground cables supporting utilities around the world.

Synergy Cables Ltd., has been focused on the worldwide renewable energy markets, since 2005, supporting the demand of underground collection systems of the wind and solar projects in North America, Europe and the Middle East.

“green”, LSOH, and other value added products – which clearly define our competitive advantage in the highly commoditized cable industry. We work closely with our strategic partners, to learn of their ever changing needs and focuses, allowing them to improve their offerings and competitive position.

The Alpine Group, a NYSE traded company has controlling shares of Synergy Cables which is traded on the Tel-Aviv stock exchange.

The company exports to over 40 countries, and supports local markets using its subsidiaries in the US, UK and Germany.
