

Taditel Ltd.

Line of Business

Automotive Electronics
Products

Established

1998

Leading Executive

Mr. Shalom Flamer
President & CEO

Taditel, a subsidiary of Haargaz, is mainly active in Automotive Electronics. Taditel evolved from being an internal Thick Film Hybrids Circuits Modules ("Hybrids") supplier for its parent (Tadiran – The Israeli Telecom leader at that time) in the eighties then becoming a supplier of modules for the Avionic, Telecom, Medical industries in the early nineties, which then became the basis for the penetration to the Automotive world during the Mid nineties.

Taditel Ltd. of today is entirely engaged with the design and manufacturing of solutions (currently: Voltage regulators, Rectifier bridges, Control units,

- Technology and Sales center, Anderson, IN, USA

Sales Volume (million US\$)
