**G**lobal Filtration Solution Provider for the Automotive Industry and Beyond. Founded in 1965, the A.L. Group is a privately-owned group of companies head quartered in Ashdod, on Israel's Mediterranean coast, with a network of manufacturing, marketing and distribution subsidiaries spanning four continents and employing over 1,200 workers.

The A.L. Group develops and manufactures high quality products for the automotive filters industry. Our customers are leading global filters manufacturers, vehicle manufacturers and importers, who rely on the consistently excellent quality of our service and cost-effective pricing.

## Automotive Filtration Specialists

A.L. Group specializes in the production of fuel injection, diesel, air, cabin and metal-free filters for vehicles of all kinds, including agricultural, military, marine equipment and aeronautical engines.

## Cutting-Edge R&D

Innovations in the automotive industry compel us to stay one step ahead of the market. Our marketing and R&D departments understand the very latest requirements for emissions reduction and fuel efficiency. We monitor the markets and work with our customers to develop the most effective

filters, designed to meet their exact specifications, as well as all necessary aesthetic, engineering and environmental standards.

## Quality Control

Each of our filters is submitted for rigorous testing at the A.L. Group's state-of-the-art laboratories, including durability testing, a full range of functionality and efficiency tests. From senior managers through

to individual assembly-line workers, our entire staff shares the company's commitment to quality. We adhere to the highest international and ISO quality standards such as: ISO 16949, ISO 14001 and carry out continuous product testing at our manufacturing centres in Israel, Shanghai and Bulgaria.

## Customized Service

A.L. Group has streamlined its services through our searchable online catalogue, updated on a daily bases and contains OEM cross references and applications for our entire product range. Our customers receive weekly updates on new filters released to the market and updates on our existing products. This enables our customers to quickly find the exact filter they need. Beyond our extensive product range, A.L. Group can design and manufacture customized filters to suit any engine, providing an end-to-end service to meet our development partners' exact requirements. Our renowned branding and packaging services allow us to supply our customers with products under customers brand packed and printed as to customer's specifications. The global spread of our manufacturing facilities allows prompt delivery to any location on the globe.

## Global Distribution

A.L. Group supplies its clients from our regional distribution hub in America (New Jersey) and from our manufacturing facilities in the Middle East (Israel), Europe (Bulgaria), China (Shanghai) and USA (South Carolina). Having offices in Japan and Australia allows us to supply tailored made solutions for these markets with all benefits local companies can provide. This strategic global coverage and international fulfilment expertise enables us to deliver shipments of any size to customers anywhere in the world with minimal lead times.

## Satisfaction Guaranteed

A.L. Group guarantees excellent service with our complete commitment to the highest quality standards and total customer satisfaction. The proof of our success over five decades of operation can be found in our long-term strategic partnerships with leading international automotive brands, who trust the A.L. Group as their global filtration solution provider of choice.
