

# Aleppo Systems International Ltd.

## Line of Business

Home-Land Security  
& Military Supply and  
Integration

## Established

2007

**A**leppo Systems International Ltd. is a preeminent independent technology company and leading global provider of project management and integration services. We deliver proven end-to-end security, safety and communication systems and platforms.

We are a global provider of Homeland Security Solutions, Military Equipment and Training, Perimeter Security Systems, Aerial Monitoring and Surveillance Systems and Control Center Platforms.

We execute everything from concept definition to comprehensive planning and design, to precise implementation accompanied by round-the-clock consultation, maintenance and support.

We are a people-oriented organization taking great care of our employees and customers. We put an emphasis on attentive listening and comprehension, which allows us to move forward through innovation.

Aleppo Systems International Ltd. focuses on your organization's security needs as a whole. While working with us, you receive a comprehensive solution. This solution consists of assessment, consultation, installation, and maintenance. All aspects will be custom-tailored to meet your specific needs.

## Projects Management

Our team will work with you hand-in-hand to meet all your needs. Our services range from site-survey to project-definition as well as supply of materials and integration and installation services. We work with a unique methodology regarding project management and execution. This allows us to deliver high-end projects in a cost-effective way to our clients.

The challenges of security systems integration have grown over the years due to increasing complexities in security technologies, products and solutions.

We have the qualifications, experience, expertise and tools necessary to meet all your needs. We can design, engineer, install and support a wide range of network applications.

Our certified processes and more than 10 years of service experience are clearly reflected in our numerous achievements and successes. We are proud of the thriving and robust results we have achieved in executing projects.

Our strategic alliances with leading technologies enable us to deliver cost-effective integration services. These services are steady, scalable, smart, innovative, and result-oriented for your business. Being a pure play single-focus systems integrator, we deliver state-of-the-art solutions to international customers.
