From the moment your needs are defined and the right products are identified - our company offers another important advantage - its ability to provide the product quickly.

Our motto is excellence, reliability and safety. All our products meet stringent safety and quality standards.

### Riot Control Gear & Combat Equipment

Combat equipment is primarily designed for the dispersal of demonstrations or riots. The company markets superior quality protective products that meet stringent standards and are designed to protect the health and life of the combat soldier during training, and naturally, in real time, when

tional weapons, and lets you conduct the training under conditions that are the most similar to the real conditions. The company exclusively markets products to international companies that are the leaders in this field. Simulation kits enable instructors to receive data in real time and to navigate the training in the most efficient manner.

B. Safe Security is constantly involved in the development of new products with its suppliers, while identifying the needs of the market and its customers. All products and training programs may be modified according to the specific needs and unique specifications of each and every customer.
