Total Commitment to Excellence

Baran Group is fully committed to occupational health and safety issues. The company has been

Baran International – Global Quality, But Local Everywhere

Baran Group has expended out of Israel more than a decade ago, and since then has become one of the globe's leading 200 engineering companies. We are on the ground, using local brain power for local tasks, and at the same time we Mobilize our expert to max out the value we bring to our customers. This way, you get the best solution on the globe from people who speak your language and are coming from your own cultural background. Wherever we assume a task – weather leading a project or taking part in it – we comply with both local and international standards and laws, ensuring our customers are getting the best answer in the shortest time frames, while still maintaining maximum safety for employees and workers in site, and for later users of our projects. We also make sure our customers receive the most sustainable solutions, for the health of planet and people, and within the strictest local and international norms.
