Export Management

**B**eth-El Industries is a worldwide leading manufacturer and designer of collective protection systems against radiological, biological, and chemical weapons, contamination from toxic industrial materials, and blast and explosion protection valves. Experience of more than 40 years as well as a customer base of more than 60 separate armies has given Beth-El a vast knowledge in the field of NBC protection. Due to the advantage of our own engineering R&D capabilities, as well as in-house production workshops, Beth-El's customers benefit from individualized and sophisticated solutions for their specific demands and requirements.

every hospital in Israel, embassies, public and private organizations, and others.

Customers abroad include many of the NATO forces, PifP armies, forces in the Middle and Far East, and Governmental Institutes as well.

## Quality Assurance

Beth-El Zikhron Yaaqov Industries Ltd. is certified for ISO 9001 and AQAP-2110 quality management systems as well as a Manhar Level A supplier, which is the highest grade of quality assurance for the Israeli Ministry of Defense. Armies from around the world and high-tech customers regularly perform quality audits and supervision as well.
