Financial Controller

Carmex Precision Tools Ltd. is a leading manufacturer of high-quality cutting tools. Carmex different product lines are recognized worldwide as advanced technology reliable full range lines. Carmex supplies worldwide through exclusive agents, distributors and its branches who maintain extensive service and stock.

Carmex is known as a service oriented company and a very competitive supplier.

Our products and the service we provide live up to the highest standards and outperform them.

Product and Services

Carmex specializes in the production of threading tools for turning and milling.

The company's products are used in factories or machine tool shop in which materials are being turned or milled by CNC (Computerized Numerical Control) machines, or by conventional machines.

Carmex product lines includes - Thread Turning inserts and holders, Indexable Mill-Thread inserts and holders, Mill-Thread Solid-Carbide, Grooving tools, Spiral Mill-Thread, Tiny-Tools for boring, threading, grooving and profiling in small parts.

These products offer high quality, accurate geometry, excellent cutting performance and extended tool life. Most customer requirements are supplied immediately from our readily available wide range of stock. In addition to the company's standard lines many special forms are offered in accordance with customers' drawings.

Brief History

Established in 1988 the company is located in a state-of-the-art facility in the North West part of Israel.

In 2003 Carmex opened C.P.T. GmbH, a sales branch in Germany, in 2004 Carmex Precision Tools LLC, a sales branch in Wisconsin, USA and in 2008 Carmex Srl in Italy.

On August 2008 Carmex completed its transfer to the new, modern factory.

In addition to the construction we invested in new machinery and advanced equipment as part of our strategy to keep our position in the first line of high technology.

Quality Assurance

Carmex is certified by ISO 9001:2008, ISO 13485:2003, ISO 14001:2004, OHSAS 18001, and CE.

Special Characteristics

The company maintains high level of R&D in order to offer products that include technological innovations and advantages for the customers. To support it Carmex do not compromise and use equipment, raw materials and tools from leading brands and highly skilled manpower.

Among our customers: Israel military industries, Aerospace, Car, Medical, Die & molds industries.

Miniature Threading Tools and Swiss Tools

Carmex also manufactures a unique line of miniature and ultra-miniature threading tools meant to cut down to 6 mm bore diameter, thus replacing numerous types of taps. Carmex offers many kinds of swiss tools for swiss machines.

Mill Thread Tools

The company manufactures advanced "Mill Thread" lines of thread milling tools for modern CNC machines.

Among Carmex unique developments is the Spiral Mill Thread, a line of inserts and holders for threading or finishing. Its special helical design enables smooth cutting operations at high feed rates and reduced machining time.

Carmex offer a wide range of Solid Carbide Thread Mills for threading from M1.0 x 0.25, or for threading hardened materials up to 62 HRC. All the tools are made with helical flutes and coated with the most advanced coating technology.

Seeking

Distributors, Agents, O.E.M partners, End-users.
