

Check Point Software Technologies

Line of Business
IT Security Solutions

Established
1993

Leading Executive
Mr. Gil Shwed
Founder, Chairman
and CEO

Established in 1993 by Founder, Chairman and CEO Gil Shwed, Check Point Software Technologies (NASDAQ: CHKP) develops, markets and supports a wide range of software and combined hardware products and services for IT security.

The company first pioneered the IT security industry with FireWall-1, its patented Stateful inspection technology.

Check Point continues to develop new innovations based on the Software Blade Architecture, providing customers with flexible and simple solutions that can be fully customized to meet the exact security needs of any organization. Check Point is the only vendor to go beyond technology and define security as a business process. Check Point 3D Security uniquely combines policy, people and enforcement for greater protection of information assets and helps organizations implement a blueprint for security that aligns with business needs.

Customers include tens of thousands of organizations of all sizes, including all Fortune and Global 100 companies. Check Point's award-winning ZoneAlarm solutions protect millions of consumers from hackers, spyware and identity theft.

The foundation of our success is our customer-driven philosophy, our continuous technological innovation, as well as our relentless and pure focus on providing comprehensive, innovative security.

Our Products

Check Point's solutions include an extensive portfolio of innovative and market leading security products, ranging from network and gateway security solutions, to data, endpoint and management security solutions.

Total Security

The company delivers Total Security unified under a single management framework and provides its customers with uncompromised protection against all types of threats, reduces security complexity and lowers total cost of ownership.

Mission

Check Point Software Technologies is the worldwide leader in securing the Internet. Making Internet communications and critical data secure, reliable and available everywhere has been and continues to be our ongoing vision. We are committed to staying focused on real customer needs and to developing new and innovative security solutions that redefine the security landscape.

Our Customers

Check Point's products and services are sold to enterprises, service providers, small- and medium-sized businesses and consumers. We secure more than 100,000 businesses and millions of users worldwide, including:

- 100% of Fortune 100 companies
- 100% of Fortune 500 companies
- 100% of Global 100 companies
- 98% of Global 500 companies
