Manager

With the establishment of the state of Israel close to 60 years ago, Englander Ltd. began manufacturing tools and dies to support the needs of the fledgling industry of the young state.

Since its inception, Englander Ltd. has been involved in all fields of production and has specialized in the manufacture of precision-stamped metal parts and tools. Through the years, Englander Ltd. has gained experience and know-how by supplying a wide range of products for the growing industry in Israel. Englander Ltd. is currently exporting over 80% of its production to worldwide satisfied customers.

Backed by over six decades of experience in meeting the demanding requirements of leading manufacturers, Englander Ltd. offers you a proven performance record.

Subcontracting

Englander Ltd. is the perfect subcontracting partner for your tools, dies, precision-stamped metal parts and sub-assemblies. Englander Ltd. is proud of its fine reputation for reliability and top quality products in Israel and all over the world.

Capabilities and Services
