

# Dorot Control Valves Ltd.

## Leading Executives

Mr. Arie Tenenbaum  
CEO

Mr. Giora Naor  
Deputy CEO

Mr. Yosef Avital  
Global Sales &  
Marketing Director

**W**ith over 300 employees globally, Dorot is a privately owned company and a member of the MAT Holding Group. The company's global operations are managed from its headquarters in Israel.

Dorot has subsidiaries and offices in the United States, Mexico, Argentina, Italy, Spain, China and Australia, and partnerships with hundreds of manufacturers, integrators, distributors and customers around the world.

Hundreds of companies in the industrial, civil engineering and agricultural sectors around the world have selected the innovative and field-proven technologies developed by Dorot. Public and private water utility companies, construction and engineering companies, fire-suppression integrators, farming enterprises, energy companies and other entities from various industries, all benefit from Dorot's expertise and professional services. Dorot is considered a true partner by its customers for overcoming challenges

in R&D, design, implementation, and maintenance of water-control valve products.

Since its establishment in 1946, Dorot drives the market with continued innovation, uncompromising excellence and firm commitment to its customers.

Through its unique water-management solutions, the company also contributes to the global efforts for environment protection. Dorot invests in research and development of quality products and solutions.

Thanks to its numerous projects and innovative technologies, Dorot enjoys excellent international reputation in three main fields: Water Management, Agriculture and Fire Protection.

## Water Management

Dorot's hydraulic control valves provide an optimum solution for the effective management of a variety of waterworks systems, including pumping stations, reservoir control, sewage and water treatment, pressure management, low-flow regulation, surge prevention and more. The

company's products enable municipal authorities and industrial customers to use their water systems more effectively saving substantially in drinking water and in operational and maintenance costs.

## Agriculture

Dorot's innovative developments for agriculture include automatic valves for drip irrigation, greenhouses and landscape, air relief valves, water meters, back-flushing valves for water filtration systems and valves made of specialty materials for water treatment and for handling aggressive media.

## Fire Protection

Dorot has developed advanced fire-protection solutions for a variety of applications, including advanced fire-protection systems for explosive areas such as refineries, fuel depots, petrol and gas rigs, fuel containers onshore and offshore, power generation plants and more. Dorot's robust and reliable fire protection products can be operated remotely – hydraulically or electrically – and feature simple functional and structural design that ensure ease of operation and minimum maintenance.

## Hydraulic Control Valves

- 100 Series - Weir type, direct-sealing diaphragm valve for agricultural and wastewater systems.
- 300 Series - Globe-pattern rigid sealing control valve for drinking water and waterworks applications.
- 500 Series - Y-pattern rigid sealing control valve for a variety of applications.
- Plastic and UPVC valves.
- Back Flushing valves.

## Water Meters

- Domestic meters - Single jet, multi jet and volumetric.
- Waterworks meters - Turbine (Woltman) and electromagnetic.
- Irrigation meters - Turbine (Pelton).
- AMR - Automatic Meter Reading available for each of our Water Meters.

## Mechanical Valves

- Butterfly valves
- Double flap check valves
- Gate valves
