**K**inetics is internationally engaged in design, development, qualification and production of Systems and components for military tracked & wheeled vehicles and other stationary platforms worldwide.

Our Customers benefit from unique and sophisticated solutions due to Kinetics engineering and development capabilities and infrastructure which allow flexible approach to their requirements.

Kinetics 270 employees operate in three different facilities located in Israel, USA & the United Kingdom.

## Electro-Hydraulic Capabilities

Kinetics is a qualified supplier of Turret, Gun & Missile Launcher Control Systems and related assemblies by US Department of Defense, Israel Ministry of Defense and many other customers worldwide, for military land platforms.

### Kinetics Hydraulics portfolio includes:

- Hydraulic & Fuel Manifolds and Valves
- Hydraulic Pumps & Motors
- Hydraulic & Fuel Filters
- Dust Filtration
- Exhaust and Air Inlet Systems

Kinetics, through its daughter company in the US, is also certified FAA Part 145 for supply and overhaul of hydraulic components for the commercial aviation industry.

## Quality Assurance

- ISO 9001:2008, Quality Management Standard
- ISO 14001:2004, Environmental Management Standard
- OHSAS 18001:2007, Occupational Health & Safety Management System

## Systems

- Auxiliary Power Units (APU)
- Power solutions for surveillance and transmission equipment & stationary relay sites
- Life Support Systems (LSS) - modular Heating, Ventilation, Air-conditioning (HVAC) & Nuclear Biological Chemical (NBC) Protection systems
- Electronics Cooling Units
- Air-conditioning systems for military shelters and commercial automotive and rail

## Customers

Kinetics is proud to serve as a home-designer for Israel Ministry of Defense programs as well as global Defense Industries, Governmental institutes and Armies. Among our commercial customers: Automotive OEMs, Rail manufacturers and Airlines.

## Ownership

Kinetics is a wholly subsidiary of Elbit Systems Ltd.

## Seeking

Kinetics is actively seeking development & procurement programs and joint ventures with global companies.
