**H**AARGAZ Taditel Automotive Ltd. owns five subsidiaries engaged in: transportation and bus production; pre-fabricated and industrial housing; contract manufacturing and metal processing; storage, cooling and display systems; regulators and rectifiers for the automotive industry.

## HAARGAZ Transportation

The plant, a member of the Haargaz Group founded in 1932, is an innovative, high quality advanced plant. Its main focus is the development, design and production of buses and other transport solutions (Light Trains, Minibuses, etc.), for local and global markets, at competitive prices, using advanced management and engineering methods and tools. Haargaz buses are built on advanced quality chassis (MAN, SCANIA, IVECO, DAF, MERCEDES), complying with strictest European standards and the latest environmental standards. **Main type of buses:** BRT, City, Articulated,

InterCity, Coaches & Tourism buses, as well as Low Entry buses. The plant is certified with the ISO 9001:2008 advanced standard.

## HAARGAZ Industrial Housing

The largest manufacturer for Israel's pre-fabricated housing market. The plant applies advanced production methods, some exclusive to HAARGAZ for building high quality housing and structures. The plant has produced more than 450,000 sq.m. (4,900,000 sq.ft.) of residential buildings, guest houses, industry and office buildings, schools and classrooms, community centers, etc. Complying with the Israeli Standards Institute's specifications 921

and 931, the ISO 9002 standard and anti-flammable standards, HAARGAZ mobile housing has earned its reputation as quick, high-quality construction.

## HAARGAZ Storage Cooling and Display Systems

The dominant supplier in Israel in shelving and storage systems for home and office use, light, moderate, standard and unique display systems for shopping centers, cashier desks, heavy storage systems such as drive-in systems, pallet racking, automatic storage, life storage (flow-racks, push back, etc...) and complete required solutions for logistics centers. The company recently acquired KEDAH, which has over 40 years of experience in manufacturing industrial refrigerators & deep-freezers, cooled display systems, and energy units for cooling systems. The company is the only Israeli One Stop Shop supplier for retailers and point of sale. The company has ISO 9001 certification.

## HAARGAZ TECHNOPACH Metal Industries

This is an advanced factory specializing in designing and manufacturing metal products and advanced electronic packaging systems for the high-tech, telecom, aviation-related and defense industries. The plant has developed the technology and accumulated the knowledge to provide complete technological turnkey solutions from design to assembly.

## Taditel Automotive Electronics

Provides advanced microelectronic technologies for the automotive and high-tech industries, focusing on Voltage Regulator, Rectifiers, Ignition and Control units both for the OE and Aftermarket.
