

Hudson Vehicle Product Development Ltd.

Line of Business

Development of Computerized Electronics and Mechanical Systems for all Types of Vehicles

Established

1997 By Aharoni Peleg

Leading Executive

Mr. Aharoni Peleg
CEO and R&D Team
Leader

Hudson vehicle product development Ltd. is a private company, develops, manufactures and distributes products with OEM and aftermarket orientation, and provides technical and consulting services.

Currently two products are available:

“FPMS”

Fuel protection and management solution, prevents fuel thefts from trucks.

“Whipguard”

An anti-whiplash safety cushion. Whipguard improves your safety by narrowing the gap between the head and the head-rest, the main cause for neck injuries during an accident.
