

# IMC Casting Ltd.

**Line of Business**  
Gravity Casting

**Established**  
1937, in Kibbutz Givat Brenner

**Leading Executive**  
Mikael Busbib  
CEO

IMC is an aluminum gravity casting company, fully dedicated to automotive OEM industry. The production plant is located in the Nazareth industrial zone on a total area of 27000m<sup>2</sup>.

The company specializes in the design and production of complex casted aluminum parts and has also developed a revolutionary patented system of Aluminum Gravity Die Casting Technology oriented for mass-production.

importer in Israel, invested 25 million dollars in the new state of the art production facilities located in Nazareth called IMC Casting Ltd.

## Logistic center

Effective distribution to our logistic center in Orly (France) allows us to deliver our products to customers every day and also secure a safety stock based in Europe. The logistics centers support our customers by EDI Communication.

## Activities

Top grade gravity die castings are produced with and without sand cores that can be specified to a high degree of complexity. Tight casting tolerances and the use of a wide range of aluminum alloys ensure product diversity while maintaining cost effectiveness. Customers may specify any requirements including thermal heat-treatment, assembly operations, CNC machining..., and all at a superior quality. We can address a 30- gram to 20 kg range of parts. Current production is reaching 5 million parts per year.

## Ownership

The company was established in 1937 (Matar Casting) by a small group of metal craftsmen who brought their skills from Europe. Since 2003 the new owners, Lubinsky Group, major European car

## Quality Assurance

Our plant is ISO/TS 16949:2009, ISO 14001:2004, ISO 18001:2007 certified.

## Leading customers

Our main Tier1 and Tier2 customers are PSA (Peugeot & Citroen), Ford, Valeo, Volkswagen, Modine, General Motors, Daimler, Land Rover.

## PRODUCTS

- Air Intake components
- EGR/Throttle Body Housings
- Charge Air Cooler inlet/outlet
- Manifolds
- Gearbox Components
- Brackets
- Brakes Components
