

# Malcam

## Line of Business

Real time, volumetric moisture and density tomography measurement systems.

## Established

1994

## Leading Executives

Udi Moshe  
Vice President Marketing and Sales

Yedidia Yosef  
Vice President Engineering; COO

Aliza Moshe  
CLO; Finance Director and Board Member

Danny Moshe  
President and Co-Founder & Board Member

## Headquarters:

### Malcam Ltd.

27 Habarzel St.  
Ramat Hachayal, Tel Aviv  
69710, Israel  
Tel: 972-3-649-5664  
Fax: 972-3-648-8335

**M**alcam is a world leader in volumetric moisture & density tomography measurement systems, based on microwave tomography. Malcam systems are designed for quality control in manufacturing processes in a wide range of industries.

Malcam has a comprehensive IP portfolio of numerous granted US patents, corresponding international granted patents, as well as pending patent applications throughout the world.

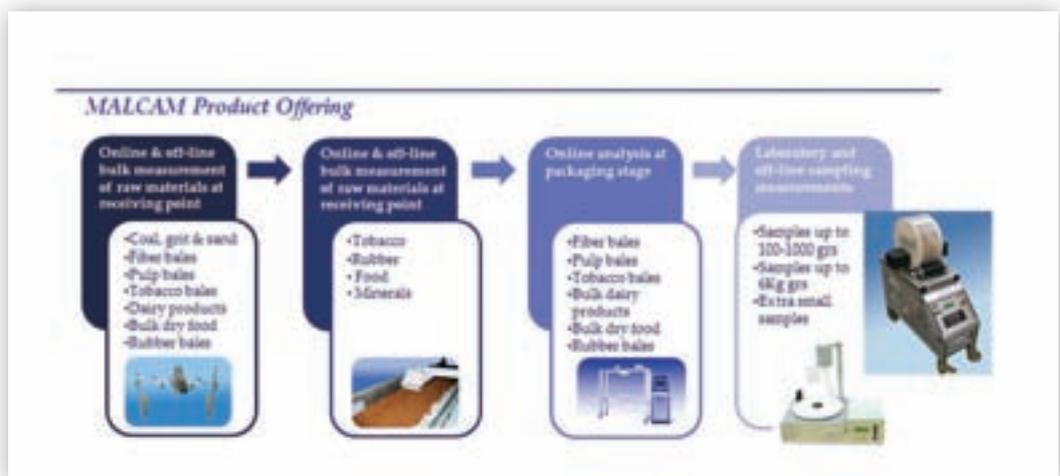

Malcam innovative microwave data processing technology, expert systems and dynamic data processing based on SQL data base enables to improve line productivity, enhance product quality, and enable faster ROI.

Malcam have over 10 years of experience in the Polymers market, focusing in the rubber production lines, provides process efficiency and control, enhance product consistency and improve product quality in the rubber industries.

Malcam is headquartered in Tel Aviv with service centers in the US, China, India, and South East Asia.

## Real Time Accuracy

Malcam systems scan the volume of the product and provide highly accurate results in real time. This enables better understanding and control of the entire production process, thus providing improved process efficiency and product quality. Increased and fast ROI is achieved due to reduction of waste and costly processes.

Malcam is an ISO-9001 certified company, and its systems comply with the relevant UL and CE standards.

## Worldwide Marketing

The Malcam systems are marketed and sold directly as well as through company's global of distributors. There are currently more than 950 systems operational at sites around the world. Our customer base includes companies in the tobacco, pulp & paper; recycle paper, grains and seed, coffee, chemicals, fibers and food industries.

Malcam is a world leader in volumetric moisture and density measurement in the tobacco industries, with over 18 years' experience in all aspects of tobacco
