

# Meptagon

## Line of Business

Meptagon is a one-stop solution for the process industries, from pre-fabrication to on-site construction and electro-mechanical execution.

## Established

1960

## Leading Executives

Tomer Harari  
Owner & CEO

Erez Harari  
Director of Business  
Development

Rafi Dotan  
Director of Project  
Execution

Liav Knafo  
CFO

**M**eptagon provides a wide range of solutions for industrial process plants. Services include management, planning and engineering, as well as construction and maintenance of advanced-technology plants and systems.

**Meptagon's specialties are:** High purity piping and systems, Mechanical and piping, Electrical infrastructure, Instrument & Control, Clean architecture, Industrial coating.

**Services provided by Meptagon include:** Pre-fabrication and process skids, Start-up, commissioning & training, Plant maintenance, support and after-sales service.

**Meptagon main markets are:** semiconductors, food and beverage, biotech and pharma, chemical, water treatment, natural gas, energy, and more.

## Process Skids

Meptagon provides complete plug and play process unit skids, either pre-designed and tested or tailor-made according to the client's design and specifications.

By means of detailed design and 3D modeling, we build stand-alone units which integrate process and equipment components, instrumentation and controls within one single frame. Each skid is designed, fabricated, and tested at our factory, before delivery to the plant.

Meptagon is capable of fabricating virtually any process system skid. That, according to client design, or according to client requirements and design by Meptagon's engineering team.

## Typical systems provided by Meptagon:

- Chemical delivery systems
- Dosing systems
- CDA – Clean Dry Air
- Specialty gases control unit
- WFI – Water For Injection
- RO – (Reverse Osmosis) Water
- Process cooling water
- Lift stations
- Portable processing transfer units
- Filtration / Separation
- CIP / SIP
- Flow panels
- Blending mixing metering
- Piping modules
