CFO

Cheli Keren
VP Human Resources

Mr. Stef Wertheimer, founder of ISCAR Group – now a part of Warren Buffett's Berkshire Hathaway – established Metallicone Ltd. in 1999.

Metallicone is an experienced manufacturer of top quality, complex technical, high precision metal parts and systems.

Metallicone's state-of-the-art technologies and know how enable us to serve leading companies in various industries.

The end markets we serve include machine tool, heavy duty machines, commercial printing, aerospace, semiconductor manufacturing equipment and other industries.

A team of 180 employees are based in a 5,700 square meters plant in Israel and a 1,600 square meters plant in Baden-Württemberg, Germany.

Similar to Metallicone Israel, our daughter company

in Germany offers a complete line of services.

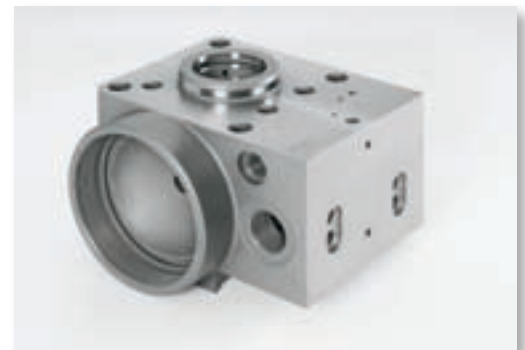

Metallicone GmbH's activities include production, marketing & sales, customer service, purchasing and dispatch, and other related activities.

Metallicone's state-of-the-art production facilities utilize the latest technologies including: Milling and Lathe Centers, Surface Grinders, Cylindrical Grinders, Lapping, WEDM and EDM (CNC), Measuring equipment, Laser Marking.

Quality and Reliability

At Metallicone we put special emphasis on uncompromised Quality procedures that guides our daily operation by using strict guidelines.

Metallicone is certified and conforming to the AS9100 aerospace standards, ISO 14001 environment standards, OHSAS 18001 Health and Safety standards, and ISO/IEC 27001 Information Security standards.
