Manager

Mul-T-Lock® is a worldwide leader in developing, manufacturing and marketing high security locking products and access control solutions for institutional, commercial, industrial and residential applications.

ASSA ABLOY Group

Today, Mul-T-Lock is fully owned by ASSA ABLOY of Sweden, the global leader in total door opening solutions, from locks to security doors, entrance automation and access control systems, with an annual turnover of more than 5.5 billion Euro and more than 45,000 employees worldwide. ASSA ABLOY is traded on the Stockholm Stock Exchange.

Mul-T-Lock's Mission

With its readiness to respond to any challenge, Mul-T-Lock provides its customers peace of mind by offering comprehensive, customized, top security cylinders, locks and padlocks, electromechanical products, access control solutions and service worldwide.

Leading Edge Design and Manufacture

Mul-T-Lock began operations in 1973 with a patented four-way lock. Over the years they have developed hundreds of high-security locks, cylinders, padlocks electromechanical locking systems, electronic door solutions (EDS), automatic assembly

and key-cutting machines, and complementary accessories. With a highly skilled workforce, Mul-T-Lock's factories are fully automated, using state-of-the-art technologies, including robotics and customized machinery, the majority of which is manufactured by Mul-T-Lock itself.

Highest International Standards

Mul-T-Lock products comply with the toughest international standards, such as UL, CEN, VDS, SKG, CPC and A2P. The company has received three certifications from the Israel Standards Institution: ISO 9001/2000, ISO 14001, SI 18001.

Innovative Products - Safety, Security and Confidence

The company holds hundreds of international patents for its innovative products which provide safety, security and convenience.

Cylinders: Suitable for use in doors, door locks, cabinets, safes, duty-free carts, and electrical and telephone wire cabinets.

Locks: Including padlocks, single-point and multi-point locks for steel and wooden doors, deadbolts and others.

Electro-Mechanical Products: Electro-mechanical cylinders, locks, and access control products.

Complementary Products: Lock cases, door closers and hardware, panic devices, safes and vehicle protection solutions.

Automatic Machinery: Automatic assembly machines and automatic key-cutting machines.

Worldwide Marketing

Mul-T-Lock's products are marketed worldwide via its own 13 selling units in the US, Canada, UK, France, the Czech Republic, Argentina, Turkey, Italy, Africa, Belgium, Mexico, Kenya and Tanzania and through a global network distribution in 70 countries. Mul-T-Lock has 20,000 service centers equipped provide service to more than 100 million users. Mul-T-Lock also serves O.E.M.s, including door manufacturers and institutions.

Customer Base
