## Large Scale Solutions

Based on our in-house design and manufacturing capabilities, coupled with the broad experience we gained throughout more than 30 years of existence - we design, manufacture and deliver high quality, tailored per-site, drinking water and wastewater treatment systems for cities, towns and communities, large industrial facilities, military bases and alike.

## Global availability

Our solutions are deployed in more than 50 countries and are used by multinational corporations, national water companies, municipalities and industries.
