

PCB Technologies Ltd.

Line of Business

Electronics Industry -
PWB Manufacturing
& PCB Assembly

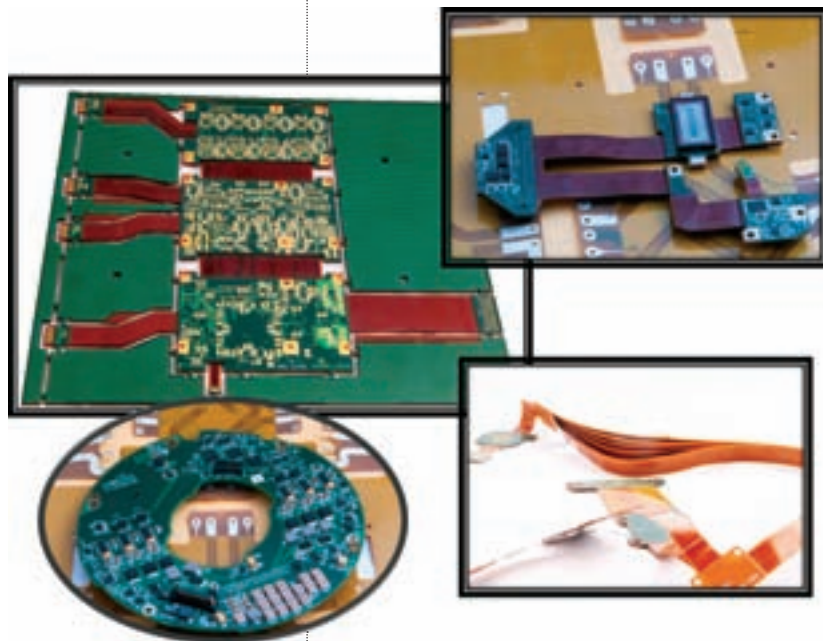

Established

1981

Leading Executive

Guy Cohen
COO

PCB Technologies Ltd. is the leading Israeli manufacturer and supplier of technologically complex and advanced multi-layer printed circuit boards (PCBs), Printed Circuit Boards Assemblies (PCBA) and Electro-Mechanical assemblies for various industries – telecommunications, medical, industrial, military and aerospace. PCB Technologies has the ability to globally support the customer's from quick-turnaround PCBs for new product introduction to mid and high-volume, cost effective fabrication of advanced, complex and technologically edge boards. With our comprehensive fabrication and assembly capabilities we supply it all from bare board manufacturing to sub-assemblies to finished electronic products.

We provide a wide range of advanced printed electronics including: PCB, Flex, Rigid-Flex, hybrid PCB, microwave PCB, assemblies, and electro-mechanical assemblies.

Precision Circuits Inc., a fully owned U.S. subsidiary of PCB Technologies, is located at Neptun City New Jersey. PCI is responsible for sales, marketing and customer support for the North America market. PCI holds a manufacturing license agreement (MLA) from the U.S. State

Department since 1997 enabling PCI sharing with non-U.S. manufacturers' technical documentation that thus, enables PCB technologies to take part with Department of Defense (DOD) programs.

- **One-stop manufacturing**
We offer one-stop manufacturing board fabrication assembly and electro mechanical assemblies. This one-stop solution enables us to providing a broad technology to meet our customer needs.
- **Quick-turn services**
We deliver highly technology advanced printed circuit boards and assemblies in a short lead time. This enables our customers to reduce the time from prototype to production.
- **Military and Aerospace capabilities**
We offer a wide product portfolio for the Military and Aerospace market leveraging our expertise and special knowhow in exotic material integration into Printed Circuit Boards fabrication and assembly.
- **Strong process and technology expertise**
We manufacture and assemble technologically advanced and complex boards utilizing our vast process experience and expertise.

Other Important Information

PCB Technologies is traded on the Tel Aviv Stock Exchange and is a subsidiary of PriorTech a public holding company traded on the Tel Aviv Stock Exchange.

PCB Technologies has over 700 employees and more than 30 years of experience in the electronic manufacturing field.

We Think Global and Act Local

- Customer focused organization
- World class engineering
- Diverse client base
- Technologically advanced with unique capabilities

Quality

Certifications include: ISO 9001, ISO 14001, ISO13485, UL, MIL 50884 (Adhesive & Adhesiveless), MIL-PRF 55110 (various materials), Lead Free - fully compliance with the ROHS regulation.
