Supergum is a private company established in Israel in 1956 with over 50 years of experience in designing, manufacturing and marketing rubber and plastic products.

Supergum is Israel's leading rubber and plastic solution provider in the fields of Automotive, NBC protection and Military products.

The company operates in 4 facilities in Israel- 3 manufacturing plants and 1 managerial (marketing, sales, management and administration) facility in Tel-Aviv.

International customers include top automotive manufactures in North America and Europe and companies in the NBC protection field. In addition Supergum is Israel's leading supplier for the local market in Israel for the above technologies.

Supergum is spread worldwide with sales offices in North America and Europe and operates front logistical facilities in the USA and Germany to support on time delivery demands of its customers.

Supergum is ISO and TS certified.
