Leading Executives

Mr. Eli Tayar
CEO

Mrs. Ornit Zelevich
Project Manager

The Tal & Hadas Ltd. (T&H) Company specializes in development, design and marketing systems & accessories for the transportation and military industries.

Our unique designs and over 25 years of experience with both the military and transportation industries enable us to supply customers with systems tailored to their requirements.

Transportation industry

Vehicles: We design and manufacture high quality products made from SS tubes for the OE market. Our key costumers are Hyundai, GM, Kia, VW and main dealers in Europe. Our high quality range of produces includes the following: Total arc, side steps, pipe bumpers, sport & loading bars, roof racks, Stone guard and more

Railways: We are a licensed supplier of compo-

The many developments for the Defence Industry include the following:

- **RUF - Rescue Under Fire** - The system is a simple&clever mechanical kit that enable us to recover a disabled vehicles from a dangerous zone without exposing soldiers to hostile fire. The RUF system is tailored to meet costumers' specific vehicles. The RUF system has been operational and proven by the IDF in combat since 2006
- **Rescue Peg** - Multipurpose peg, used as an anchor to carry loads up to 4 tons
- **Shimshon System** - The system was especially designed for military troops and civil as well. The system reduces 85% of the carried equipment and transfer the load from the back to the ground. The unique designed system provides the ability to maneuver over all kinds of terrains, run, sit, lie, and kneel.

nents and products such as and luggage stacks to Siemens and bombardier. Our expertise, vast knowledge and wide abilities of working with stainless steel are well shown on our products.

Trucks: We design and manufacture a "work products" following the market demands. Our latest "EFS" - easy folding steps, - simplify the loading & unloading process while leaving the worker with "free hands".

Military Industry

Tal and Hadas Design, Develop, Manufacture and Market various items and systems for the Military Industry. Our key costumers includes: UK mod, GD ELS, IDF, DGA and forces units.

The Company utilizes its experience and professional knowledge in this field and manufactures in accordance with the needs and in collaboration with Defence Forces worldwide problem solving systems to real life situations.

Standards

Tal & Hadas work in compliance with the TS 16949 and ISO 9001.
