Telemenia is a leading international EPC contractor with vast experience in the design, construction and commissioning of power generating plants in over 55 countries and 4 continents with over 15 fully-owned Subsidiaries in key markets. Telemenia's expertise includes the development of power projects based on natural gas, hydropower, HFO, Diesel, biomass and biofuels ranging from 10MW to 450MW.

The company's on-time, on-budget track record is a paramount aspect of Telemenia's business philosophy. Founded in 1956, Telemenia's proven capabilities are backed by a team of seasoned professionals that ensure that every plant is tailor-made to meet each client's specific needs, using state-of-the-art technology, proven project management techniques and detailed quality control procedures to ensure the most reliable, economically sound and technically advanced solution.

of operation and maintenance. Furthermore, the company offers long-term O&M contracts to its clients, ensuring that the plant is run at top availability and efficiency in the long run.

As part of the F.K. Generators Group, Telemenia enjoys a strong financial position. In recent years, the company is increasingly engaged in projects as independent power producer (IPP), BOT or BOO. Telemenia's current portfolio of projects drives profit able and financial stability, positioning Telemenia on track for future growth while maintaining its position as a leading EPC and service provider.

The company, through its financial partners world wide, offers companies and governments seeking to develop energy projects optional project financing services that speed up project development at competitive terms.

The Telemenia team strongly believes in social in
