

Verint Systems Ltd.

Verint® Systems Inc. is a global leader in Actionable Intelligence® solutions for customer engagement optimization, security intelligence, and fraud, risk and compliance. Today, more than 10,000 organizations in over 180 countries use Verint solutions to improve enterprise performance and make the world a safer place.

Verint Communications and Cyber Intelligence Solutions™

Built on decades of experience in deployments around the globe, Verint Communications and Cyber Intelligence Solutions (CIS) help law enforcement, national security, and other government agencies neutralize terror and crime, facilitate communication service provider compliance with lawful interception mandates, and

• Cyber Security

Verint Cyber Security solutions protects nations and organizations from ever-evolving advanced cyber threats.

• Accurate Location Tracking

Verint Accurate Location provides real-time mobile location tracking, with analytics and workflows to support investigative activities.

• Open Source Web Intelligence

Verint Open Source Web Intelligence enables national security and intelligence agencies to leverage the internet to identify and investigate developing threats.

• Tactical Communications Intelligence

Verint Tactical Intelligence Solutions provide portable and covert security intelligence across almost any mobile communications network and operate independently of service providers.

• Service Provider Compliance

Verint Lawful Compliance Solutions enables communications service providers to comply with ETSI, CALEA, and other lawful interception regulations and standards.

Verint Video & Situation Intelligence Solutions™

Verint Video & Situation Intelligence solutions enhance security operations across a wide range of industries, including banking, retail, critical infrastructure, government, corporate campuses, education, airports, seaports, public transportation, and homeland security.

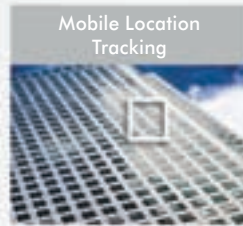

In addition, Verint solutions provide users with untapped visual business intelligence to drive higher customer satisfaction, efficient workforce management, and optimal operational decisions.
