Mrs. Jana Weller  
Sales Manager EU & NA

**V**on Roll Transformers Ltd. is a leading global manufacturer and distributor of electrical infrastructure equipment, principally transformers, for the generation, transmission and distribution of electricity. Customized design and the development of products to our clients' specific requirements are among our key competencies.

Von Roll Transformers was founded in 1949 and is a majority-owned subsidiary of Von Roll. The company has played an important role in the development of Israel's electrical infrastructure and has extensive experience and expertise in the energy sector, particularly in the area of power transmission and distribution.

Our power transformers are built according to the highest quality and industry standards using advanced technologies for greater reliability and durability.
