

**מתימו"פ** MATIMOP

מרכז התעשייה הישראלית למחקר ופיתוח  
Israeli Industry Center For R&D

## MATIMOP | Alliances Around the World

MATIMOP collaborates with partners from all over the world to promote R&D alliances between international and Israeli companies. We specialize in fusing Israeli and international innovation in industrial R&D and accessing national funding sources for joint ventures.

### In Europe:

MATIMOP cooperates with partners in Italy, Germany, Denmark, Hungary, Finland, France, the Czech Republic, Romania, Slovenia, Spain, Sweden, Switzerland, Turkey, Poland, Russia, Lithuania and Greece. MATIMOP is a member of Europe's largest collaborative R&D programs in different fields, including: EUREKA - Europe-wide support for R&D | Eurostars - SME technological cooperation | Celtic - collaborations in telecom | Galileo - for Global Satellite Navigation Systems | ITEA - in software | EEN - locating business and technology partners, and more.

**EUREKA** is a Europe-wide platform for industrial R&D cooperation. Hundreds of projects are launched within its framework every year, with Israeli companies participating in over 10% of them. Due to the prominence of its technological companies in the program, Israel was chosen to assume the organization's Chairmanship from July 2010 to June 2011. Cooperation with all European countries can be conducted under the framework of EUREKA and Eurostars.

### In the United States:

Israeli technology and enterprises have gained unprecedented recognition in the US market. MATIMOP facilitates cooperation agreements with various US states. Among the first to sign agreements with the OCS were New York, Wisconsin, Virginia, Maryland, Colorado, Oregon and Massachusetts.

### In China, India and Australia:

MATIMOP maintains a unique focus on emerging markets that have risen to the forefront of the global economy in recent years. China and India, which have become top destinations for many global companies, continue to show immense enthusiasm for Israeli R&D. A pioneering agreement between the OCS and the prosperous Chinese province of Jiangsu spurred a number of successful joint projects in 2009-2011.

### In Latin America:

Latin American markets have shown unprecedented growth over the last decade. MATIMOP operates in Brazil, Argentina and Uruguay, and works to deepen its ties with countries emerging as leaders in the global economy.
