**C**ommtouch® (NASDAQ: CTCH) safeguards the world's leading security companies and service providers with cloud-based Internet security services. A cloud-security pioneer, Commtouch provides proven solutions to numerous organizations, including Microsoft, Check Point, Google, 1&1, Cox, Rackspace, F-Secure, Panda Security, Webroot, and WatchGuard, for integration into their offerings. Commtouch was founded in 1991, is headquartered in Virginia, US with offices in California, Florida, Iceland and Israel.

## GLOBALVIEW CLOUD

Commtouch's GlobalView™ Cloud acts as a threat intelligence center, automatically analyzing billions of Internet transactions in real-time to identify new threats as they are initiated. The comprehensive feedback loop between Commtouch's email security, Web filtering, antivirus and threat detection solutions enhances the effectiveness of each solution. This enables Commtouch's partners to protect end-users from spam and malware, and ensure safe, compliant browsing. The company's expertise in building efficient, massive-scale security services has resulted in mitigating Internet threats for thousands of organizations and hundreds of millions of users worldwide.

## EMAIL SECURITY, WEB FILTERING, & ANTIVIRUS SERVICES

Relying on Commtouch's security services enables partners to focus on their own areas of expertise, secure in the knowledge that Commtouch is always well ahead of the latest email, Web, and malware threats. The core GlobalView Cloud combines five carrier grade data centers with multiple worldwide collection nodes to analyze billions of Internet transactions daily while protecting hundreds of millions of users.

Email security services use patented Recurrent Pattern Detection™ (RPD™) technology for zero-hour protection from email threats in any languages or formats. Commtouch Web Filtering uses real user browsing behavior, over 200 URL reputation sources and several categorization engines for the broadest coverage and highest accuracy. Commtouch's Antivirus utilizes a modular, multi-layered approach to provide award-winning malware detection and industry-leading performance. Commtouch also provides a unified engine simplifying integration and reducing the footprint required for a comprehensive Internet security offering.

## THE COMMTOUCH DIFFERENCE

- Cloud-based security services leader – Commtouch combines award-winning Internet security technology with a global delivery & service platform.
- Unique business model – Commtouch is focused on technology partnerships only, serving OEM partners and service providers.
- Partner-centric support organization – Commtouch partners enjoy superior support, in both the technical and marketing arenas.
- Solid financial foundation – Commtouch is publicly traded (NASDAQ: CTCH) and profitable and has shown consistent growth. The company maintains continued market presence and makes ongoing investments in technology and research.
